

JOBS PERFORMED IN 2017

- Implementation of tunnel seals at the construction site of **the second metro line in Warsaw**
- Sealing of reinforced concrete walls gaps at the construction site of **the District and Regional Court in Zamosc**
- Sealing of leaks by the ceiling structure at the crane attachment points in **Shakespearean Theatre in Gdansk**
- Repair of the drinking water reservoir – **water intake in Lomnica at Trzy Strugi Street**
- Renovation of the drinking water reservoirs at the water intake – **Rokitno, Lubartow borough**
- Sealing of the drinking water tank at the premises of **University Center of Maritime and Tropical Medicine in Gdynia**
- Seal filling of the DN 80 pipe on **Wyspa Spichrzow – Gdansk**
- Renovation of the rectangular tank no. 2 on **the premises of „Zbiorniki Stoki” – Pomorska 246 Street – Lodz**
- Modernization of the clean water tank no. 1, **West Water Treatment Station at Zeglarska Street – Olsztyn**
- Leaks liquidation by performing the injection method **at the PT/Hilton facility**
- Implementation of stabilizing injection of floor panels in a small hall at **the A-Lakiernia plant, alongside the geological research**
- Sealing of the expansion walls of a garage hall using pressure injection method, in a building **at Sikorskiego 19 Street – „Zielone Tarasy” – Olsztyn**
- Sealing of the garage hall at the **Waterlane facility – Gdańsk**
- Repair of the expansion joints tightness at **the Gorzow Philharmonic**
- Seal of the leakage of the excavation’s diaphragm walls at **the Polaka Street – Wroclaw**
- Renovation of reinforced concrete structure of radial thickeners – objects no. 49.1 and 49.3 located on the premises of **Mechanical Coal Processing Plant in LW „Bogdanka” S.A**
-

JOBS PERFORMED IN 2016

- Reconstruction of ZKF1 and ZKF2 technological pipelines, on the premises of **municipal sewage treatment plant „LYNA” – Olsztyn**
- Execution of the settling tank’s outer walls heat insulation with anti-corrosion protection in the reconstructed secondary settling tank, on the premises of **municipal sewage treatment plant „Lyna” – Lesna Street in Olsztyn**
- Modernization of secondary settling tanks and primary settling tank – Secondary settling tank no. 1, on the premises of **municipal sewage treatment plant „Lyna” – Lesna Street in Olsztyn**
- Pasting of the railway track ballast **„Modernization of the railway line E 30/C-E 30, Krakow-Rzeszow – stage III”**
- Sealing injection of leaks – **„Delta” facility – Tczew**
- Repair of the dilatation leakiness using the curtain injection – **Philharmonic in Gorzow**
- Injection filling of the DN 50 pipe, within the territory of: Construction of service and residential buildings’ conglomeration located **at Chmielna 10-25 Street – Gdansk**
- Injection ground repair in the production and storage hall – **„Delphi” – Gdansk**
- Sealing injection of dilatation reservoirs – **A4 motorway**
- Execution of expansion joints sealing between the walls of the fountain overflow at **the European Solidarity Centre – Gdansk**
- Execution of the passage stairs’ sealing – **European Solidarity Centre – Gdansk**
- Execution of the full expansion joints sealing and leaks sealing of the reinforced concrete reservoirs – **A4 motorway**
- Sealing injection of leaks in the residential and service facility – **Stockholm, Sweden**
- Sealing injection of leaks – **Morena Shopping Center – Gdansk**
- Stopping leakage – **Waterlane – Gdansk**
- Strengthening of soil under the digested sludge tank 37n by low pressure injection method, on the premises of **sewage treatment plant „Lyna” – Olsztyn**
- Sealing the railway viaducts constructions **at 144,703 and 146,011 km of the E65 line**
- Implementation of bituminous expansion joints at **the New Lodz Fabryczna Station in Lodz**
- Insulation of load-bearing system of the ballast bed, in Servidek/Servipak 12 mm system – **PPT-K facility – Krakow Zablocie**

COVER TECHNOLOGIES SP. Z O.O.

- Sealing leakages in the PO-2 recirculated excess pumping station building, on the premises of **the sewage treatment plants – Wloclawek**
- Repair of external walls of the preliminary settling tank's outflow channels and renovation of the bottom plate and reinforced concrete walls in the system of the reinforced concrete walls repairs and protection (using the PCC materials of the internal pumping station) **at the sewage treatment plant – Slupsk**
- Sealing of the scratched ribbed foundation slab 80 cm under the pool basin – **Waterlane facility – Gdansk**
- Execution of injection cavern filling under existing quay steps – **Vistula boulevards – Warsaw**
- Sealing of the fountain basin and the garage hall's ceiling – **European Solidarity Centre – Gdansk**
- Sealing injection of water leaks in the underground garage – **Jerozolimskie 123 Avenue – Grout injection**
- Expansion of the existing pizza production plant – **Dr. Oetker Polska Sp. z o.o**
- Sealing and reinforcement of **the PE VAVIN well of the Tegra 1000 type, in the sewerage system – Kobiernice**
- Sealing of leaks at the construction site of the **Slowacki Route in Gdansk**
- Making the damp-proof insulation of the foundation slab, on the site „**Construction of a building for the District and Regional Court in Elblag**”

JOBS PERFORMED IN 2015

- Waterproofing injection of penetrations of sewer DN 800 and DN 1600 – Molewski Sp. z o.o.
- Sealing injections in the tunnel of station SKM Gdynia Cisowa
- Pressure injection for filling sewage installation at the construction site of Centrum Historii „Zajezdnia” in Wrocław
- Application of protective coating on walls and bed of neutralization tank – LNG Terminal in Świnoujście
- Execution of pipe sleeves on site of Oil Terminal in Gdańsk
- Repair of fractured floor on flat roof on digested sludge tank, object 1.15 – OŚ Pomorzany in Szczecin
- Application of protective coating in tank TK 6071
- Sealing of ballast bed – I stage
- Renovation of concrete retention tank no. 17 in Regional Installation of Municipal Waste Processing in Łężyce
- Execution of waterproofing and surface insulation of foundation slab on site: „Construction of building for the Regional Court and District Court in Elbląg at ul. Płk. Dąbka 21”
- Strengthening and waterproofing injection of soil along the passage of head DN 800
- Repair of sewer manhole and discharge canal in sewage treatment plant in Grodzisk Wilkp.
- Comprehensive sealing of sheet pile lock, including materials on site: Construction of weir on the river Nysa Kłodzka in Nysa

JOBS PERFORMED IN 2014

- Waterproofing injection of sewers DN 800 and DN 1600 – Molewski Sp. z o.o.
- Sealing injection of leakages in underground parking, in apartment building in Kraków – WAKO Sp. z o.o.
- Waterproofing injection of windows in diaphragm walls – sewer Wałowa in Gdańsk – Mecanotubo Polska Sp. z o.o.
- Waterproofing injection of sewer penetrations of DN1000 and DN 16000 – Sanimet Krzysztof Grzywacz
- Renovation of the dome of chamber ZKF-2 at: Sewage Treatment Plant ŁYNA in Olsztyn – PWIK Olsztyn Sp. z o.o.
- Comprehensive sealing of sheet pile lock at: construction of weir on the river Nysa Kłodzka – Keller Sp. z o.o.
- Application of polyurea- and epoxy-based chemical resistant coatings based on – tanks TK 6001 and 5110 at LNG Terminal in Świnoujście – Saipem S.P.A.
- Waterproofing of the structure and expansion joints of **STABIL TRAK** tanks: Oruńskie Tanks in Gdańsk – PBG S.A.

COVER TECHNOLOGIES SP. Z O.O.

- Repair of the structure and sealing expansion joints of relief sewer – sewage treatment plant ZDROJE in Szczecin – ZWiK Szczecin Sp. z o.o.
- Sealing injection of leakages from soil – Chamber K1 – Wałowa Gdańsk – PPI Chrobok S.A.
- Sealing injection of connections of sewer DN 1600 in Gdańsk – Molewski Sp. z o.o.
- Sealing injection of starting chamber and outlet chamber of sewer DN 1600 – Wałowa Gdańsk – Mecanotubo Polska Sp. z o.o.
- Filling injection of space between old and new lining of suction pipe cone at: hydropower plant Tryszczyn – ZRE Gdańska S.A.
- Installation of flowmeters, penetrations of probe and foam mixer at ZKF-2 at sewage treatment plant ŁYNA in Olsztyn – PwiK Olsztyn sp. z o.o.
- Curtain injection of service duct of transformer station, DHL Kowale in Gdańsk – Distribution Terminals Poland Sp. z o.o.
- Waterproofing expansion joint of inlet chamber TG-1 in hydropower plant Rakowice – Zakład Usług Remontowo-Budowlanych ANNA Husak
- Sealing of cable penetrations at shopping mall Jeziorak in Iława – Portfel PH2 Sp. z o.o.

JOBS PERFORMED IN 2005-2013

- Reprofiting of reinforced concrete structures – shopping and entertainment center Zielone Tarasy in Elbląg – P.B. Budizol Włocławek
- Renovation of weir and concrete at hydropower plant Prędzieszyn – Energa S.A.
- Renovation of diving pools at military port – Gdynia Oksywie – P.W.T UNI-DIVERS
- Renovation of roof slope at office building of ZREMB in Gdańsk – the Ministry of the Treasury in Gdańsk
- Renovation of fencing – Osowiec Fortress – P.W.T. UNI-DIVERS
- Construction and filling of gabion baskets and cylinders – gabion ring, Gdynia Babie Doły – P.W.T. UNI-DIVERS
- Location and protection of sewer elements – Westerplatte Gdańsk – P.W.T. UNI-DIVERS
- Installation of new preventative waterproofing system above historical basement at ul. Garbary 1 win Gdańsk – Piwnica Sp. C.
- Structural injection of bridgehead in Zamarte, route No. 25 – P.U.H. REDON
- Execution of foundation of storage and production hall in Rusocin near Gdańsk – Banco Sp.c.
- Stabilization of concrete floor by pressure injection at TZMO in Toruń – Trasko-Inwest
- Waterproofing injection of firefighting water tank – Galeria Bałtycka in Gdańsk – Hochtief Polska Sp. z o.o.
- Comprehensive execution of insulation of firefighting water tank – Hotel Mercure in Gdańsk – Warbud S.A.
- Insulation of air intake duct – Hotel Mercure in Gdańsk – Warbud S.A.
- Curtain injection of clinker brick wall – Wiszące Ogrody in Gdańsk – Hossa S.A.
- Protection of concrete surfaces and execution of resin pathway – footbridge on the river Sandella in Lubawa – LPB Lubawa
- Waterproofing injection – underground passage at ul. Pilotów in Poznań – Ikomont Kobylnica
- Preventative waterproofing of ballast bed of railway overpass WK-6 in Chojnice – BudimexDromex S.A.
- Sealing injection of penetrations in walls of pool at military port – Gdynia Oksywie – BWT Polska Sp. z o.o.
- Sealing injection of penetrations in pool basin – swimming pool Suchy Las near Poznań – BWT Polska Sp. z o.o.

COVER TECHNOLOGIES SP. Z O.O.

- Injection filling of cavities, caverns and cracks in reinforced concrete structure – Hotel Velaves & Spa in Władysławowo – P.H. Reda Spółka Jawna
- Waterproofing injection of expansion joints and penetrations – Sports Hall Gdynia Arena in Gdynia – NOE-PL Sp. z o.o.
- Waterproofing injection of cold joint – sewage treatment plant Dębogórze Gdynia – BudomexDromex S.A.
- Insulation of roof with pressure layer and roof inlets – office&retail building at ul. Morska in Gdynia – NEX-BUD Sp. z o.o.
- Vertical waterproofing of the joint between head's structure and soil by curtain injection – railway overpass in Dobrogoszczyce – PRKiI S.A.
- Insulation of tank 609/611 – sewage treatment plant ZDROJE in Szczecin – Polimex-Mostostal S.A.
- Sealing of cracks and cold joints, and filling of expansion joints – Sports Hall Gdynia Arena in Gdynia – Mega S.A.
- Waterproofing injection of joints in sewer DB800 at GRP in Lublin – Insituform Sp. z o.o.
- Sealing of cracks and fractures of railway bridgehead in Zabrze – PRKiI S.A.
- Sealing of sewer manholes at ul. Północnej in Gdynia – ZRISCO Gdańsk
- Renovation of sewer manhole by trenchless method at ul. Na Groblach and ul. Kujawskiej in Kraków – Insituform Sp. z o.o.
- Sealing injection of pipes GRP DN1000 – sewage treatment plant in Żywiec – Amitech Poland Sp. z o.o.
- Structural sealing of load-bearing structure of spots hall at Military Port in Świnoujście – Energopol Szczecin S.A.
- Renovation of sewer manhole by trenchless method in Zgierz – Firma Nycz
- Repair of concrete floors, stabilization of substrate by pressure injection at object of Tymbark GMW in Olsztynek – Tymbark GMW Sp. z o.o.
- Emergency repair of 2 sewer manholes by injection at ul. Stawowa in Bydgoszczy – MWiK w Bydgoszczy Sp. z o.o.
- Injection strengthening of soil under southern wall of firefighting water tank no. 3 – Rafineria Gdańska LOTOS S.A. in Gdańsk – Grupa LOTOS S.A.
- Strengthening of soil under bottom slab of chamber D2 – water intake in Straszyn near Gdańsk – ARS Komfort Serwis Sp. z o.o.
- Rehabilitation of anticorrosive layers in filtering tanks of water treatment facility – Monicipal Swimming Pool Podolanka in Płock – Gmina Miasto Płock
- Reprofilng of reinforced concrete surfaces – underground passage at railway station in Chotyłów – P.U.B. Rajca
- Execution of polyurethane-based coating on stairs in pedestrian tunnel in Chotyłów – PRKiI S.A.
- Stabilization and waterproofing of sewer lateral of sewer manhole in Kielce – Monolit ZRB Sp. z o.o.
- Cleaning and tightness tests of sewage system in ZGC in Gdańsk – GATX Rail Poland Sp. z o.o.
- Renovation of 7 inspection chambers of service sewage system in ZGC in Gdańsk – GATX Rail Poland Sp. z o.o.
- Shotcreting of brigdeheads in Karlin near Białogard – Apex-Roboziem Sp. z o.o.
- Stopping leakages and removal of damp patches at underground levels of parking of the building PZU Tower at Al. Jana Pawła II in Warsaw – PZU S.A. and P.Z.U. Życie S.A.
- Waterproofing injection of rail culvert – route Chotyłów-Terespol – PRK Expol S.A.
- Strengthening of walls and slab of D2 chamber by shotcreting and sealing of inlets and outlets of duct – ARS Komfort Serwis Sp. z o.o.
- Injection filling of suction pipe cone – hydropower plant in Jastrów – ZRE Gdańsk Sp. z o.o.
- Stregthening injection of 2 foundations of rail bridge within line E-20 Siedlce – Terespol – PRKiI S.A.

COVER TECHNOLOGIES SP. Z O.O.

- Stabilization of soil under floors of residential building in Piaseczno near Warsaw – Attis Development Sp. z o.o.
- Removal of graffiti and execution of anti-graffiti protection in Gdynia – the Municipality of Gdynia, Zarząd Dróg i Zieleni w Gdyni
- Repair of defects in pre-fab reinforced concrete columns and pull-off tests – PGE Arena in Gdańsk – Consolis Polska Sp. z o.o.
- Waterproofing injection of expansion joint – C.H. Tesco in Gdańsk – Pol-Aqua S.A.
- Rehabilitation of after-coagulation settling tank no. III in WPW Tomaszów Mazowiecki – ZWiK Sp. z o.o. w Łodzi
- Waterproofing injection of cracks in discharge canal – sewage treatment plant CZAJKA in Warsaw – Mador Sp. z o.o.
- Sealing of KDN tank by pressure injection – sewage treatment plant in Gniewino – Dekpol Sp. z o.o.
- Stabilization and strengthening by injection of soil under strip foundation of multi-family residential building at ul. Noniewiczza 40 in Suwałki – Suwalska Spółdzielnia Mieszkaniowa in Suwałki
- Waterproofing injection of secondary settling tank – sewage treatment plant in Gniewino – Dekpol Sp. z o.o.
- Execution of resin-based pathways on the bridge in Stare Siedlisko – PRD-M Sp. z o.o.
- Waterproofing injection of expansion joints in slabs of underground parking – residential building at ul. Nowatorska in Zakopane – ZRB D. Danigier
- Execution of horizontal barrier in walls of residential building at ul. Marii Skłodowskiej-Curie in Pruszków – Attis Development Sp. z o.o.
- Injection sealing of penetrations in walls of underground parking – Hotel Kuracyjny in Gdynia – P&P Sp. z o.o.
- Soil stabilization by pressure injection – Państwowa Szkoła Muzyczna in Suwałki – Skanska S.A.
- Sealing leakages by injection – Sports Hall in Gdynia – Polimex-Mostostal S.A.
- Sealing cable penetrations – office building in Gdynia – Vectra S.A.
- Waterproofing injection of chamber walls of 1 and 2 reloading elevator in Gdańsk – Dekpol Sp. z o.o.
- Elimination of causes of leakages – shopping mall Jeziorak in Iława – Pol-Aqua S.A.
- Sealing leakages by injection – C.H. Tesco in Gdynia – Pol-Aqua S.A.
- Sealing injection of GRP pipeline DN2000 – sewage treatment plant CZAJKA in Warsaw – Warbud S.A.
- Waterproofing of cracks and expansion joints in service duct Pfeleiderer MDF in Grajewo – Polimex Mostostal S.A.
- Elimination of the effects of flooding in the scope of waterproofing injection and strengthening of manholes in sewage system of Kobiernice – Dobrowolski Łukasz Dobrowolski
- Waterproofing injection of joints in GRP concrete pipeline DN 1200 – sewage treatment plant Czajka in Warsaw – Warbud S.A.;
- Filling injection of space between old and new lining of suction pipe cone – hydropower plant Bledzew – ZRE Gdańsk Sp. z o.o.
- Waterproofing injection of expansion joints in wall and bottom slab – CZP in Bydgoszcz – Grupa 3J
- Improvement of density of soil under wall foundations by injection – Centrum Zdrowia Psychicznego in Bydgoszcz – W.P.H.U. EKO-TYNK
- Replacement of rainwater drainage in slabs of underground parking – PZU Tower in Warsaw – PZU S.A. and PZU Życie S.A.
- Execution of preventative waterproofing in rooms of sewage pumping station P-10 in Kieźliny – PWiK Sp. z o.o. in Olsztyn
- Sealing leakages – ERGO ARENA in Gdańsk – Budimex S.A.
- Stabilization and repair of industrial floors – storage of C.H. Tesco Gdynia – Pol-Aqua S.A.

COVER TECHNOLOGIES SP. Z O.O.

- Elimination of the effects of flooding in the scope of waterproofing injection and strengthening of manholes in sewage system of Kobiernice – Porąbka Commune
- Waterproofing injection of leaks in SPO Grudziądz motorway A1 – Skanska S.A.
- Stabilization and underpinning of pad footing under column – building at ul. Czackiego in Warsaw – Polimex Mostostal S.A.
- Emergency sealing of joints in pressure pipeline DN1200 – sewage treatment plant Czajka in Warsaw – Warbud S.A.
- Replacement of drainage beds and repair of floor in underground parking in multi-family residential building at ul. Parkowa in Warsaw – Budofix Sp. z o.o.
- Waterproofing injection of SPO Lisewo and SPO Turzno – motorway A1 – Skanska S.A.
- Rehabilitation of gully trap in system DN 800 at ul. Leonharda in Olsztyn – PWiK Sp. z o.o. in Olsztyn
- Sealing of reinforced concrete structure of slab of ZKF-1 chamber – sewage treatment plant Łyna in Olsztynie – PWiK Sp. z o.o. in Olsztyn
- Waterproofing injection of swimming pool basement and its walls – Solpark Kleszczów – Polimex Mostostal S.A.
- Sealing injection of leakages in underground parking in multi-family residential building Sadek at ul. Modzelewskiego in Warsaw – Antczak Marek Sp. z o.o.
- Rehabilitation of meter pits in pumping stations P-15 and P-17 in Olsztynie – PWiK Sp. z o.o. in Olsztyn
- Sealing cracks in slab beams in office building at ul. Elektryczna in Warsaw – Polimex Mostostal S.A.
- Stabilization of soil under wall foundations of existing building at ul. Czackiego in Warsaw – Polimex Mostostal S.A.
- Execution of vertical preventative waterproofing – Hotel Młyn in Elbląg – Bra-bet s.c.
- Waterproofing injection of leakages in service duct of chipper T-18 – Pfeleiderer in Grajewo – Polimex Mostostal S.A.
- Strengthening injection of soil directly next to sewer at ul. Kolektorska in Warsaw – Dobrowolski Łukasz Dobrowolski
- Strengthening injection of reinforced concrete beam in multi-family residential building at ul. Grunwaldzka in Olsztyn – Energetik Polska Sp. z o.o.
- Renovation of the dome of chamber ZKF-1 at: Sewage Treatment Plant ŁYNA in Olsztyn – PWiK Olsztyn Sp. z o.o.
- Sealing injection of reinforced concrete foundation of grain silos – PZZ Kwidzyn – PZZ Kwidzyn
- Structural injection of walls of bioreactors – Sewage Treatment Plant in Stare Juchy
- Waterproofing injection of penetrations in rooms of pool basement at ul. Cybulskiego in Warsaw – Willa Monaco
- Filling injection of space between old and new lining of suction pipe cone – Hydropower plant Kamienna – Gdańsk Sp. z o.o.
- Strengthening of foundation of 450t shear – steelworks Huta ArcelorMittal in Warsaw – ArcelorMittal Warszawa
- Sealing leakages of ground- and rainwater – stadium of Wisła Kraków – Polimex Mostostal S.A.
- Renovation of damaged expansion joints in settling tank OB.-4J – sewage treatment plant in Tczewie – ZWiK Sp. z o.o. in Tczew
- Sealing leakages – retention tank at ul. Smukalskiej in Bydgoszcz – P.U. Alfa
- Waterproofing injection of concrete structure of MEW (small hydropower plant) inlet into turbines – ZRE Gdańsk S.A.
- Sealing locks on diaphragm walls – tunnel under the river Martwa Wisła in Gdańsku – Terratest Cimentaciones S.L.
- Sealing injection of elevator shaft – Hotel Qubus in Gdańsk – Mar-Bud
- Sealing of meter pit W-1 – distribution center of Lidl in Pruszcz Gdański – Skanska S.A.
- Sealing injection of the columns of drawbridge in Małe Swornegacie – Vistal Mosty Sp. z o.o.
- Penetrating injection of soil at Tartak Raphaelsohnów at ul. Knesały in Olsztynie – WPB S.A. w Olsztynie

COVER TECHNOLOGIES SP. Z O.O.

- Strengthening injection of soil for the purpose of microtunneling works – bridge on Vistula River in Toruń – Sanimet Krzysztof Grzywacz
- Sealing cracks and cold joints in reinforced concrete tanks SCV, TK6071, A6080 and sewage pumping station – LNG Terminal in Świnoujście – Budimex S.A.
- Execution of chemical resistant insulation of tanks and pumping station – LNG Terminal in Świnoujście – Budimex S.A.
- Sealing leakage by injection – shopping mall Atlas in Siedlce – WPB S.A. Olsztyn
- Sealing by injection a column in tenement house at ul. Wajdeloty in Gdańsk – P.B. Wójcik Lębork
- Renovation of ramp in underground parking in multi-family residential building at ul. Parkowa in Warsaw – ADM777 Warsaw
- Injection sealing of 26 entry and exit sealing rings in microtunneling works – sewer DN1600 and DN800 – Molewski Sp. z o.o.
- Emergency repair of a part of sewer DN1400 x DN800 in Al. Krakowska in Warsaw – Dobrowolski Łukasz Dobrowolski
- Replacement of parts of service installation – ZKF-2 in sewage treatment plant Łyna in Olsztyn – PWiK Sp. z o.o. in Olsztyn
- Sealing injection of leakages in the structure of pile wall at object at ul. Stągiewna in Gdańsk – Franki Fundamenty Sp. z o.o.
- Soil stabilization with reconstruction and demolition of underground reinforcement – SOO Olsztyn – PWiK Sp. z o.o.
- Waterproofing cracks and fractures in reinforced concrete structures – LNG Terminal in Świnoujście – Saipem S.P.A.
- Chemical resistant insulation of structure of process waste pumping stations – LNG Terminal in Świnoujście – Saipem S.P.A.
- Construction of sludge dewatering tank plant in sewage treatment plant Łyna in Olsztyn – PWiK Sp. z o.o.
- Application of chemical resistant coatings in the bed of firefighting water tank – LNG Terminal in Świnoujście – Saipem S.P.A.
- Sealing injection of soil at the entrance and exit of drilling head DN 530 in Łódź – P.B. Hydrobud Sp. z o.o.
- Repair of overflow chamber at ul. 1 Maja in Szczecin – ZWiK Sp. z o.o. w Szczecinie
- Waterproofing and insulation of underground part of transformer station by curtain injection – Logistic center of DHL Gdańsk – Distribution Terminals Poland Sp. z o.o.
- Waterproofing injection of ground water leakages into DN1600 sewer chamber – ul. Wałowe in Gdańsku – PPI Chrobok S.A.
